How it works

1. Unscrew the brush head, pierce the seal with a pinhead-sized hole (approximately 2 mm), and screw the brush head back on without over-tightening.
2. Remove loose surface dirt. Hold the bottle upside down and lightly squeeze to dampen the applicator sponge. Apply the product (avoid saturating the carpet) gently work it into the fabric, and let it sit for 3 minutes.
3. Blot away the product and any remaining stains with a damp, light-colored cloth. Repeat if necessary.
4. Rinse the applicator after each use.
