HOW TO USE:

1. FILL water to the reservoir until it reaches the maximum fill line. Then, place one tablet into the reservoir.

2. RUN 2 brewing cycles, choosing the option for the largest cup size each time. Empty the used water after each cycle.

3. EMPTY any water left in the reservoir. Refill it to the maximum fill line with fresh water.

4. RUN 2 more brewing cycles with the fresh water, discarding the water afterward, to thoroughly rinse the coffee maker.

1. FILL water to the reservoir until it reaches the maximum fill line. Then, place one tablet into the reservoir. (For coffee makers that have covered water reservoirs, first fill the brewing pot with water and dissolve one tablet in it. Afterward, transfer the dissolved solution into the water reservoir.)
