

Bottle Cleaner Tablets

Designed for cleaning stains in
drinking containers

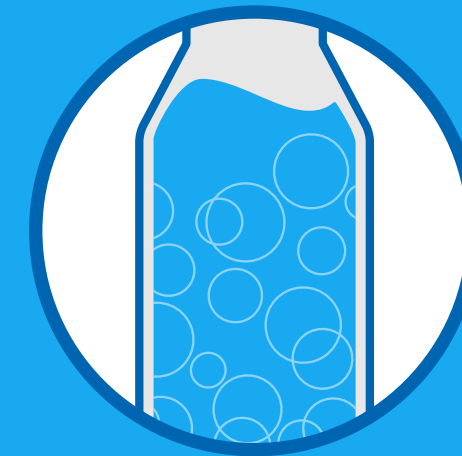

Usage Instructions

1

Fill the bottle with warm water and drop in one tablet.

2

Let it sit for 15-30 minutes while the bubbles work their magic.

3

Empty the bottle, give it a quick rinse, and your bottle is ready to be used again!

- Soak in water at **80°C** or higher (lower temperatures will require longer cleaning times).
- For plastic bottles that are **not heat-resistant**, soak in water around **60°C**.
- The product is a compressed tablet; allow 12 minutes for bubbles to form.
- Do not cover the container while cleaning.
