steel kettle

glass kettle

iron kettle

steel kettle

Aluminum
kettle

APPLICABLE TO

NOT APPLICABLE TO

HOW TO USE:

1

Fill the kettle halfway and boil the water.

2

Once kettle has boiled, add **1 tablet** to the boiled water.

3

Wait for 30 minutes then rinse kettle several times to get rid of limescale flakes & residue.

Regular use of descalers ensures that appliances remain in optimal condition, operate efficiently, and function normally. Limescale can easily damage heating elements, which may lead to premature malfunction. We recommend descaling appliances once a month.
